

## Concentration in Modern Data Analysis

ISET is proud to offer the Concentration in Modern Data Analysis (MDA) as part of its MA in Economics program. The concentration aims to provide young professionals with expertise in data (including big data) management and analysis using modern analytical tools. The concentration is currently funded by the *Ministry of Foreign Affairs of Estonia* and is implemented in cooperation with the *University of Tartu*. ISET MA alumni and young professionals with equivalent education are eligible to participate in the concentration.

As part of this concentration, in miniterms 4 and 5 ISET will offer the following 3 courses that are open to alumni enrollment:

<b>MT4</b>	Courses: Geospatial Data Analysis (tentatively: March 24-30) Program Evaluation (March 11-April 26)
<b>MT5</b>	Courses: Financial Econometrics (tentatively: May 13-July 5)

Enrollment in these courses is capped, and slots will be filled on first-come-first-serve principle, so early applications are encouraged. Enrolled participants will be required to pay tuition fee (based on the table below) before starting each course.

Activity	Price (USD)
1 <sup>st</sup> Course	350
2 <sup>nd</sup> Course	300
3 <sup>rd</sup> Course	250

Application deadlines for these courses are:

- ***Program Evaluation: March 4, 2019***
- ***Geospatial Data Analysis: March 18, 2019***
- ***Financial Econometrics: April 29, 2019***

To apply, send a message with your name and course title(s) you want to enrol in to: [mda@iset.ge](mailto:mda@iset.ge), please put "MDA application" in the subject line.
